any questions.

WHAT IT IS:

A “workshop” is more than a “study”. We begin on the title page of the AA Big Book and *work* through it, weekly, through page 164 as a group.

It is designed to give each person, including the facilitator, to have a new and deeper *experience* of the basic text. It is designed to be workable for anyone, it doesn't matter which 12 Step group you identify with. *All are welcomed!*
